

Cedric Bochsler is a Swiss web designer located in Zurich, Switzerland. Since 2003 until today he is focusing on the creation and maintenance of websites, as well as the development of web applications. Since 2007 he has been working with the content management system WordPress. His core tasks include the creation, maintenance and administration of WordPress websites, as well as the development of individual extensions for his customers.

Cédric is looking for you as a teammate. You'll help him to grow the business while driving innovations.

## Full Stack Developer

### Scope:

- Build new scalable web solutions from raw ideas, while maintaining current digital product portfolio
- Server side and front-end development using cutting edge technologies
- Experience in developing scalable and performant relational and non-relational (NoSQL) databases.
- Creative problem solving; independent (and team!) thinking including experience analysing business problems; great communication skills.
- Experience to function efficiently in a fast-paced deadline-oriented environment.

### What you will be doing:

- Take over development and maintenance of CMS installations
- Develop, test and implement new extensions / plugins

- Independently install, customize themes and plugins
- Facilitate root cause analysis of system issues
- Work with team members to conduct root cause analysis of issues, review new and existing code and/or perform unit testing
- Resolve complex technical design issues
- Analyse user requirements and convert requirements to technical design documents
- Make good technical decisions that provide solutions to business challenges
- Compile timely, comprehensive and accurate documentation and or reports as requested

**Skills required:**

- Web scale Architecture and Design
- WordPress, JavaScript, PHP, HTML5, CSS-3
- Hands on design and development with MySQL and/or MongoDB, Node.js, Angular.js/React.js
- Git version control and management
- Agile development process

**What I will expect from you:**

- Ability to work with: PHP, MySQL, JavaScript, WordPress, jQuery
- You have a growth mindset and passion for creative excellence
- Be proud of what you work on, obsess about the quality of the work you produce
- Communicate effectively and professionally in all forms of communication
- Minimum 3-5 years' experience building websites across concerns of reliability, high-availability, performance, scalability, capacity planning, and automation

**Here's what I believe in:**

- Overachievers – We always go the extra mile.
- Never Settle – We are constantly striving for growth, both personally and professionally.
- Optimistic – We are a genuine force of positivity.
- Real People- We treat everyone equally, and we're real human beings who make mistakes sometimes. Let's learn from them and move forward.
